9. Do you have any other comments to add to your evaluation?

Please provide any additional constructive comments

- A very nice TA that works hard for the students.
- Brian Bowers is also extremely helpful outside of section! You can definitely schedule an appointment and ask for additional help if needed! Great TA. :)
- I must have gotten lucky, because Brian was an awesome TA. He understands the material, but what's best is his ability to speak at any persons level. He can present an example with all the annoying idiosyncrasies that math comes with, but if you have a question he has the ability to dispense with all the math phrases and explain it again so you can understand it. Then he takes it back to math language. This makes him a great TA, because you feel comfortable asking questions knowing he can break it down. So nice, it was a pleasure to have his help this quarter!
- This is my second time having Brian as a TA. If I could chose classes by TA's I would always pick him. He is an amazingly helpful TA. I learn many techniques from him. He is always willing to help. Very thorough and rigorous. Not always nice with the grades but fair and justified.
