Please provide any additional constructive comments

- B is a great TA. I would drop this class if he was not the TA

- I didn't have his section, but he did teach the class one day when the professor was out of town. He taught it very well. He was very organized and prepared. He wrote enough on the board for us to take accurate notes and to also have time to listen to his explanations. I didn't feel like I was playing catch up trying to write everything down, like can sometimes happen with the professor.

- It would be more helpful if Brian wrote ideas in a neater matter during discussions. Sometimes it was difficult to follow his work because he would write all over the place on the chalk board. His review session for the final was really helpful.

- Very helpful! Best TA!
