9. Do you have any other comments to add to your evaluation?

*Please provide any additional constructive comments*

- Brian is by far the best math TA I have ever had at UCSD! He is exceptionally knowledgeable and most importantly he is extremely effective at teaching the material. He deserves so much credit for how great of a job he does as a TA!
- Brian is one of the best TA's I had so far in UCSD. He response to emails very quickly, and most importantly, his grading is fair.
- brian is the man
- Brian was a very helpful and friendly TA, though he could be a bit of a harsh grader. It would have been nice for him to have known what was on the exams so he could have better prepared us.
- Brian was always a big help with understanding the topics of the course.
- Brian was honestly the best TA I've ever had in math. He was super approachable, invited me to work with him during his office hours and even worked with me 1 on 1 for 2 hours to help me understand some tricky topics in time for the second midterm. I went from being below the average on the first midterm to acing the second midterm and I couldn't have done it without Brian. Thank You!
- great job keep it up
- Great TA
- Great TA did not just provide answers to homework questions although went over the concepts from scratch.
- He explains things very well and was a great TA!
- He is a great TA; everything is clearly explained, and he encourages students to come discussion.
- interesting ta
- Mr. Brian Longo was a great TA for Math 20C. He helped any student who had trouble with homework questions during section and then he went over what he thought was important from the book work. I also thought was helpful that Brian reviewed what we learned in class that week. It really helped me understand the material more.
- relatively (compared with other TAs) late in providing exam scores, but not a huge deal
