9. Do you have any other comments to add to your evaluation?

Please provide any additional constructive comments

- Christian is the best TA I've had for math. I hope he stays as an assistant!!

- He sort of teaches like a robot, but in a good way. When explaining a problem, he goes over everything and doesn't skip minor things which is really helpful.

- I can't say enough good things about Christian as a TA. A huge part of my success in this class can be attributed to how much I learn in our discussion sections. The methods are clear and illuminating, and he is very good at answering questions and giving advice.

- If you want people to do well in the 31 series, make sure Christian is the TA, no matter what professor is teaching.

- Nice

- One of the best TA's I've had. Has helped me answer almost any math question I have asked and is very knowledgeable.

- Really helpful and extremely comprehensible.
