Math 200c Spring 2011 Homework 4

Due Friday June 3, 2011 by 5pm in homework box

The exercises listed below refer to the exercise sections from the photocopied handout of chapters 0-2 of “Noncommutative algebra” by Farb and Dennis. Please let me know if you don’t have a copy of this. As usual, I list some exercises that seem interesting to me that you do not have to write up. Only the exercises that are marked with a star are to be handed in for grading.

Chapter 0: 6, 12, 16, 17, 18*, 25(a, c)*, 27, 42(b)*, 46, 49*, 50

Chapter 1: 2*, 5, 6, 10, 13(a,b,c,e)*

Chapter 2: 1, 3, 4*, 23(a)*, 32*.
