

THE CITY OF SAN DIEGO
COUNCILMAN
SCOTT H. PETERS

FIRST DISTRICT

January 5, 2004

Ms. Linda Fisler
1531 Coast Walk
La Jolla, CA 92037

Dear Ms. *Linda*

Thank you for contacting me regarding the possible expansion of parking spaces on the 1500 block of Coast Walk. I am happy to be of assistance to you and your neighbors.

At the request of a member of the community, the City of San Diego Department of Transportation, Engineering Division, evaluated the 1500 block of Coast Walk for the possible expansion of dedicated parking spaces along that portion of the coast. Due to the instability of the bluff materials and the tight driving conditions that currently exist on this portion of Coast Walk, the City of San Diego traffic engineers determined that no additional spots can be accommodated on the 1500 block of Coast Walk. In addition, the City of San Diego Department of Code Compliance conducted an investigation and found no parking space code violations on the 1500 block of Coast Walk. There are currently six dedicated public parking spaces on the 1500 block of Coast Walk and the City of San Diego has no plans to change the number of spaces.

Again, thank you for contacting me regarding this parking situation. If you have any further questions or concerns, please contact Betsy Brennan, of my staff, at (619) 236-6972.

Sincerely,

Scott Peters

1595 Coast Walk
La Jolla: CA 92037

Dear Scott,

I am horrified to hear there is a group of people who want to spoil the beauty of Coast Walk. Years ago Indians had sacred ceremonies and fire pits there, it is so peaceful.

If cars are parked along the cliff the lovely restful view will be obscured from walkers. We need this glimpse of unobstructed nature — not more blacktop and stress of looking at the backends of cars.

Who else should I write to so this Coast Walk will not be damaged?

Thank you Scott, for all that you do that is right and good.

Sincerely

Betty Dow
