

Information on Midterm 2, Monday November 14, 2005

- When** The second midterm is in class on Monday November 14. Please arrive a few minutes early to ensure the exam starts on time and that you get the full time allotted to it.
- Topics on test** The midterm is focused on the material on homework assignments 4–6, although this does require you to remember earlier material as well. New homework 7 material will not be included on this exam.
- Study your lecture notes, the homework problems, and the relevant parts of the book. For additional practice problems, do problems similar to the assigned ones.
- Supplies** Please bring your student ID card, pencils, erasers, a calculator, and a “cheat sheet” (described below). We’ll supply a test book, so you don’t need a blue book or scantron.
- No other resources are permitted. No books. If you bring your cell phone, pager, or other electronic device, be sure that it is disabled and stashed away.**
- “Cheat Sheet”** You may bring one **double sided** sheet of notes, $8\frac{1}{2}'' \times 11''$. It must be written by hand by you in pen or pencil; it may not be produced by any other means (computer, photocopying, purchasing pre-made reference cards, etc.).
- Assistance** There is no homework due Friday Nov. 11, so sections on Thursday Nov. 10 will be for midterm preparation. Please come with your questions ready. Prof. Tesler will be at a conference on the day of the midterm, so his office hours on Nov. 14 after the midterm are canceled. The T.A.’s will administer the exam. Please be sure to bring your questions to the regularly scheduled office hours or sections the professor or T.A.’s have the preceding week.
