Please work carefully, and show the steps in your calculations, not just the final answer. Your solutions will be graded both for completeness and correctness. Because the department has limited resources available for homework grading, not every problem will be graded. Instead, a selection of problems will be chosen each week to be graded.

Students are encouraged to work in groups for homework assignments. Nonetheless, all submitted work must be individual and verbatim copies are not allowed.

Solve the following exercises from Lehman.

Chapter 1/Section 8 : 24, 25

Solve the following exercises from Van der Vaart.

Chapter 2 : 5, 6, 15, 19, 20

Solve but don’t submit the following exercises from Van der Vaart.

Chapter 2 : 2, 13, 14, 18

Date: Due in-class Thursday, January 16th, 2013 (11:30am).
