Announcements:

1. **THE MOST IMPORTANT THING YOU HAVE TO DO IS FILL OUT TA EVALS:** (LINK TO TA EVALS THAT YOU SHOULD REALLY REALLY FILL OUT:

   https://academicaffairs.ucsd.edu/Modules/Evals/default.aspx)

   Okay, so I really Really REALLY want you all to fill out your TA Evals. If ANY of the three of us–Me (Jor-el), Daniel, and/or Yan–have done ANYTHING for you–whether it’s office hours, discussion sections, review sessions, E-mails, deep, meaningful, philosophical talks, OR ANYTHING, PLEASE PLEASE fill out those evals. We awkward math people need all the help we can get to be better at being NOT awkward math people.

2. **THE REVIEW SESSION WILL BE IN WARREN LECTURE HALL (WLH) 2005 ON SUNDAY, MARCH 15, 2015 FROM 1PM to 5PM.** Because you are my professor’s students, and Ohana means Family and Family means NO ONE GETS LEFT BEHIND. Planned length is up to 4 hours.

3. **A Practice Final, Solutions, and Handout will be made available as soon as I can write it I am only 5/8 problems in on the final. It is a doozy.** Details about these things to come.

4. Sections to be covered on the final include EVERY section on the homeworks, as well as section 15.3 on triple integrals and sections 11.3 on polar coordinates. I will do as much as I can to help you on this.

5. There is no solution to sections 14.8.8 and 14.8.12 (no global min/max)

6. Regarding no solution problems on the final: If there is NO solution, then the problem will include something like ”Or prove that it does not exist” written in the question. If there is no such inclusion, you may assume a solution exists.
