Math 11: Calculus Based Probability and Statistics
About Final Exam

The final exam for Math 11 will be held on **Wednesday, June 14, 3:00-6:00pm** in **Pepper Canyon Lecture Hall 109**. Please read through the following very carefully.

1. Please remember to bring your student ID to the final exam.

2. You will be assigned a random seat number. Please check TritonEd under Grades>Final Seat to find out your seat number.

3. Please remember to bring a calculator. However, use of cellphones, tablets, laptops, and such is prohibited.

4. The final exam will be on all the topics we covered in this course. (see course webpage to check the relevant textbook chapters). There will be a slight emphasis on the material after the second midterm.

5. The exam is closed book and closed notes. You cannot bring any notes or cheat-sheet to the exam. However, you will be given a list of formulas (available on TritonEd). You are responsible for understanding what those formulas means before the exam.

6. You will be given Standard Normal table (for positive z-scores) and t-distribution table. Alternatively, you can use your calculator instead, if it is capable of computing t− and z− distributions.

7. A sample exam from past years has been uploaded on TritonEd. Don’t rely heavily on the sample exam though.

8. A list of review sessions and office hours for final exam is posted (and will be updated) on the course webpage.
