Math 20C Syllabus
Summer Session I

Instructor: Michelle Bodnar
Prerequisites: AP Calculus BC score of 4 or 5, Math 20B (or equivalent)
Lectures: MWF 12:00 - 1:50pm in SOLIS 104
Instructor's Office: 6132 AP&M (Temporary)
Instructor's Office Hours: 2:00-3:00pm MW, 2:00-4:00pm F
Instructor's Email: mbodnar@ucsd.edu
Course Website: http://www.math.ucsd.edu/~mbodnar/2016SummerI/
Teaching Assistants: Garrett Williams, g2willia@ucsd.edu, and Jiaqi Guo, jig026@ucsd.edu

Reading: Reading the sections of the textbook corresponding to the assigned homework exercises is considered part of the homework assignment; you are responsible for material in the assigned reading whether or not it is discussed in the lecture. It will be expected that you read the assigned material in advance of each lecture.

Homework: There will be 5 homework assignments in this course. Homework is due in the dropboxes in the basement of AP&M. Take note of the time at which homework is due. Late homework will not be accepted for any reason. Please write your name, PID, and discussion section on your assignment. Your lowest homework score will be dropped when calculating your final grade. Collaboration on homework assignments is both permitted and encouraged, but your submitted assignments must be written in your own words. You must show your work to receive full credit on an assignment. Homework assignments will be returned in your discussion section.

Quizzes: Weekly quizzes will take place in your discussion section. Dates and topics to be covered will be posted on the course website. No notes or calculators are allowed. Your lowest quiz score will be dropped. There will be no makeup quizzes.

Midterms: This course will have two midterm exams taking place in lecture on 07/08/2016 and 07/22/2016. You must bring a blue book and your student ID. Midterms are closed book, closed note exams. There are no makeup exams for any reason. Midterms will be returned in your discussion section.

Calculators: Although calculators may be used to aid with homework assignments, the use of any calculator on an exam is strictly prohibited.

Grading: Grades will be calculated based on weekly homework assignments, quizzes, two midterms, and a final exam. They will be posted to TritonEd. Your cumulative average will be based on the best of the following two weighted averages:

Method 1:
- Homework: 20%
- Quizzes: 5%
- Midterm 1: 20%
- Midterm 2: 20%
- Final Exam: 35%

Method 2:
• Homework 20%
• Quizzes: 5%
• Best Midterm Exam: 20%
• Final Exam: 55%

Your lowest homework and quiz scores will be dropped, but you may not drop a midterm score. After your weighted average is calculated, letter grades will be assigned based on the standard grading scale:

A+  97
A   93
A-  90
B+  87
B   83
B-  80
C+  77
C   73
C-  70
F   < 70

We may adjust the scale to be more lenient based on the performance of the class, but it is guaranteed that the scale will not be adjusted to make it harder to get a better grade.

**Final Exam:** The final examination will take place on July 30, 2016 from 3:00 - 5:59pm. Please note that this is a Saturday. By enrolling in this course, you agree that you are able to sit for the final examination at its scheduled time. The final examination will not be offered at an alternate time. If you believe you have a legitimate conflict with the scheduled time of the final examination, you must resolve it with the instructor by the end of the first week of class (July 1).

**Regrades:** All graded material will be returned in the discussion sections. If you wish to have your homework, quiz, or exam regraded, you must return it immediately to your TA. Regrade requests will not be considered once the homework, quiz, or exam leaves the room. If you do not retrieve your quiz or exam during discussion section, you must arrange to pick it up from your TA within one week after it was returned in order for any regrade request to be considered.

**Academic Integrity:** Academic dishonesty is considered a serious offense at UCSD. Students caught cheating will face an administrative sanction which may include suspension or expulsion from the university. It is in your best interest to take pride in your work maintain your academic integrity.
