Office: AP&M 5712
Office hours: M 9:00-9:50am & Tu 2:00-2:50pm
E-mail: momirzae@ucsd.edu

Teaching Assistant: Yi Luo
Office: SDSC 106E
Office hours: F 1:30-2:20pm
E-mail: yil328@ucsd.edu

Supplemental Instruction:
Room: Center 202
M, W, Th 1:00-1:50pm

Course Homepage: http://www.math.ucsd.edu/~momirzae/Teaching/Math4C.html

Class Times: Lecture: Monday, Tuesday, Wednesday 10-11:50am in AP&M 7421.
Discussion: Thursday 10-11:50am in AP&M 7421.

Prerequisites: Math 3C, or a qualifying score on the Mathematics Placement Test.

Subject material: We will cover parts of chapters 1, 2, 3, 4, 5, 6 and 7 of the textbook.

Calculators: A graphing calculator is not required for this course. Calculator and computer use will be permitted on homework assignments, but not on quizzes or exams.

Homework: Solving problems is the single most important thing that you can do to learn mathematics. As such, it is very important that you spend time finishing and understanding your homework problems. Homework will be assigned on the course homework page (and https://gradescope.com/) and will be due on Sunday at 11:00pm through https://gradescope.com/. Late homework will not be accepted for any reason.

Quizzes: This course will have two 15-minute quizzes certain Tuesdays (July 10th and July 24th) at the start of lecture at 10am. There will be no make-up quizzes.
Exams: There will be one midterm exam, tentatively scheduled for July 18th. The midterm exam will be administered during class at 10am. The final examination will be held on Friday August 3rd, 8-11am in room TBA. No calculators will be allowed. There will be no makeup exams.

Grading policy: Your final grade will be determined by the following scheme:

- 30% Homework (best 3 of 4), 20% Midterm Exam I, 10% Quizzes, 40% Final Exam

This score will correspond to the following letter grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97</td>
</tr>
<tr>
<td>A</td>
<td>93</td>
</tr>
<tr>
<td>A-</td>
<td>90</td>
</tr>
<tr>
<td>B+</td>
<td>87</td>
</tr>
<tr>
<td>B</td>
<td>83</td>
</tr>
<tr>
<td>B-</td>
<td>80</td>
</tr>
<tr>
<td>C+</td>
<td>77</td>
</tr>
<tr>
<td>C</td>
<td>73</td>
</tr>
<tr>
<td>C-</td>
<td>70</td>
</tr>
<tr>
<td>D</td>
<td>60</td>
</tr>
</tbody>
</table>

There will be no curve on individual assignments or exams. Additionally, you must pass the final exam to pass the course.

Integrity: Academic dishonesty is considered a serious offense at UCSD. Students caught cheating will face an administrative sanction which may include suspension or expulsion from the university. It is in your best interest to maintain your integrity.

Friendly advice: Mathematics can be very frustrating if you are lost and confused, but very fun if you stay on top of things. In this five-week summer session we will cover the material normally covered in a ten-week course. You should expect to spend at least twelve hours per week working for this course. If you spend enough time solving problems and studying your notes, you will succeed. Come to class prepared and eager to learn. You should skim over the sections listed on the course calendar before lecture. You will be surprised the difference that a fifteen minute head start makes in how much you understand during a lecture.
