TOTAL COMMENTS: 12

- 1) N/A
- 2) Mary was very helpful this quarter. A++! Would recommend to any student.
- 3) She is really helpful during office hours also.
- 4) Section was a bit early, but the TA was very helpful.
- 5) Wonderful spirit and shows a passion for what she is teaching. Really cares about students understanding her.
- 6) She makes the material seem really easy and is very helpful in answering any questions one might have.
- 7) She is super cool and amazing.
- 8) She was awesome. Very informative.
- 9) Mary Radcliffe is probably the best TA I've had so far in my stay at UCSD. In my opinion she is a better teacher than the professor. I don't go to lectures any more because my teacher confuses me. I have found that going to math section and studying on my own is a better option and gets me a better grade.
- 10) She is really good at explaining and very easy to follow. To be honest, the way she explains is better than professor.
- 11) Very good TA. Explain questions very clearly.
- 12) Mary is friendly, approachable, and very helpful. As compared to other current and previous TAs, she is a refreshing change. She is very enthusiastic about the material and clearly wants us to learn, and to share her enthusiasm. The only reason why I would not say the section is enjoyable is because of its early time, which discourages student involvement and, indeed, consciousness.
