9. Do you have any other comments to add to your evaluation?

*Please provide any additional constructive comments*

- He did an excellent job. I also appreciate the fact he provided numerous review sessions, even on weekends, before quizzes and the final. He really went above and beyond.

- He is a good TA in that he interacts with the students. Roman is also pretty laid back in his interactions with his students while still remaining as professional as possible which I greatly appreciate as it makes it easier to talk to him both in class and outside of it.

- I felt that sometimes Roman didn't have a definitive answer for us, but that seemed more related to the nature of the material than his competence as an instructor.

- Please grade homework quickly.

- Roman is definitely a good math TA. He seems like a fellow mathematician which makes it easier to learn from him. He encourages us to think of new ideas and attack problems in unique ways. Sometimes he would do a complete problem but often he would get to a step and give us a general hint on how to proceed, which is great.

- Thank you for spending so much time for our class, whether it was office hours or grading homeworks/exams or writing up solutions to the homework!

- Very good TA.

- very nice guy, Knows what he is doing.
