- Best TA I’ve ever had. Very helpful
- Great job wish it was at a better time I would have gone more often
- He was really clear in his explanations, which made understanding the problems a lot easier.
- He was very good about getting to every problem students needed help on and thoroughly explaining how we get the answer. Very patient and always went the extra mile to help his students. Great TA!
- he's good
- I had a TA last quarter who came into class with a lesson plan of topics he wanted to cover as extra information to the lecture material. It was greatly helpful and often the extra info we got in that discussion helped me understand homework problems and do well on midterms. Going from a TA like that to a TA who simply answered homework questions was a little disappointing, but other than that Sinan did a relatively good job as a TA. He answered homework questions and always gave us back our midterms and quizzes on time.
- I moved from my 8am section to your 8 am section! Even though it was 20minutes more of a walk for me. Thank You for teaching us. I think the other students were just too quiet so it wasn't that fun, but you are great. Please teach 10C!
- Met with me after class and was very helpful
- Really good at explaining tricky concepts
- Sinan made learning math interesting and easy, and as someone who has struggled and had difficulties with math, I really appreciated his friendly and open attitude. I would definitely recommend Sinan to other students as he was a great Teaching Assistant!
- Sinan was a great TA. He clearly cared about his students. He would often spend 10-20 minutes overtime for section in order to ensure that our questions were all answered. He would also often stay 20-30 minutes over his assigned office hours time. He interacted well with students, remembered our names, and made us feel comfortable to come to him with our questions. Thank you for a great quarter! I would not have done well if not for your discussion section.
- Sinan was really good at clearly explaining confusing questions and was very friendly and approachable. Awesome TA!
- The TA usually just went over specific homework problems that the students needed help with. He always answered questions thoroughly, but was sometimes was quick with his explanations. He tended to be quick with any questions which were asked one to one with him. Overall he was a good TA though.
