- awesome TA, really showed that he cared about the students going out of his way to show midterm corrections as pdfs and study guides for test as well as giving extensive help and explanations on homework, one of the best TA's I've had in my years at UCSD

- Sinan did a very good job. I was unable to attend section, but during office hours he was very helpful and well prepared. He explained solutions very clearly.

- Sinan is a very good TA. Knows the material well enough and is good enough to teach it. Only real complaint is that almost all the homework problems would be done in section, so those who went to section basically had the whole homework assignment done already. This shouldn't really go against Sinan, but to me, answers to graded homework assignments shouldn't be spoon-fed to us in an upper division math course.

- Sinan was very approachable and it was easy to notice his interest in helping students to understand the material.

- Thanks for being understanding with the homework. The reviews you did were very helpful. Your one lecture was also very good in the sense that it was very straight forward.

- Very helpful and respectful TA. Highly recommend this TA
