9. Do you have any other comments to add to your evaluation?

*Please provide any additional constructive comments*

- I really like how you generalize some of the procedures (like when you note a general approach to solving a specific type of combinatoric problem) instead of focusing on just getting the problems done. You also explain in-depth well.

- Sinan's fuckin' dope! Extremely sharp, and really has a talent when it comes to explaining foreign concepts to students.

- Sooo smart and kind. Very helpful.
