Section 2.3

1. You should make yourself familiar with the 11 limit laws in the book. (You don’t need to memorize them in order or anything like that, just be sure you know what they are in order to solve problems.)

2. Write answers to the following questions in your notebook. (Due Monday Sept 23)
   
   (a) What does the squeeze theorem say? Draw a picture to illustrate it.
   (b) What is the greatest integer function?

Homework

   (a) WebAssign Problems: See WebAssign HW3
   (b) Hand-Written Problems to turn in: 2.3: 8, 41 (Due Wednesday Sept 25)
