1) awesome person but very difficult grader

2) Mary is amazing. She has a far better command of the material than even the professor and truly shows a passion for teaching.

3) Better at explaining than the teacher himself, and great at covering how to do math problems. She's exemplary at giving step by step instructions and how they work, making her discussions very useful.

4) She is a one of a kind woman.

5) very approachable, helpful and understanding.

6) She knows her stuff, but sometimes is really rude to the students.

7) She is THE BEST

8) Well prepared and enthusiastic... excellent job

9) best TA I have had at UCSD by far! Including non math classes. better than the professor...she should teach the class!!!! also very accessible during office hours and open to helping!!! a suggestion would be to hold review sessions before midterms if possible

10) Her summaries of each section are really helpful. If anything, I go to section for that reason.

11) I would recommend the TA to other students.

12) Mary is awesome, teaches veryyy well compared to my last TAs. She's good at teaching concepts. She also keeps the pace going during discussion so she can convey the most material to the majority of students. I suggest caring/respecting students more over the pace though.

13) THIS TA IS THE BEST. SHE WAS THE SAVING GRACE FOR THIS COURSE AND I CANNOT EMPHASIZE ENOUGH THAT SHE EXPLAINS THE MATERIAL WELL. If you are taking this class, take it under Mary Radcliffe. You won't regret it.

14) Mary Radcliffe is a wonderful TA.

15) Mary not only knows what she is talking about, but really seems have a talent for teaching. She is clear, concise, and perhaps most importantly, is able to relate the material in a manner that allows you to understand the fundamental principals upon which it is built. Not to mention that she somehow manages to do this without spoon feeding you the mechanical process needed to solve a particular type of problem, so you actually wind up remembering why everything worked the way it did.

16) She is by far the most useful/helpful TA I ever had. She explains concepts in such way that makes it 10 times easier than the Professor. She she been the professor everyone in class would have gotten As. Excellent teaching skills with great sense of humor. I love her!!!

17) She is excellent, definitely helped me gain a better understanding of the course material

18) I definitely recommend Mary. She really knows the material and if I had gone to more discussions, I probably would have done a whole lot better in the class. She takes points that I understand and makes them unforgettable, it's great!

19) Great TA that expects students to have questions.

20) She is a great TA. Very helpful and provides insight to the materials in the course. I would definitely recommend her as a TA.
