1

What is an Actuary?

An actuary is a person who:

- Analyzes, manages and measures the financial implications of future *risk*
- Develops and validates financial models to guide decision making
- **Keystone of Cheiron:**
Interactive financial modeling to simulate the financial future depending on assumed key *risk* variables

What do Actuaries do?

- Actuaries manage risk.
 - We use a combination of strong analytical skills, business knowledge, and understanding of human behavior to manage today's complex risks facing our society.
- What is risk?
 - Risk is the chance that an undesirable event will occur.
 - But risk is opportunity. That's where an actuary comes in.

Where do Actuaries work?

- Insurance Companies
- **Consulting Firms**
- Government Insurance Departments
- Banks and Investment Firms
- Large Corporations
- Public Accounting Firms
- Anywhere Risk Management is needed

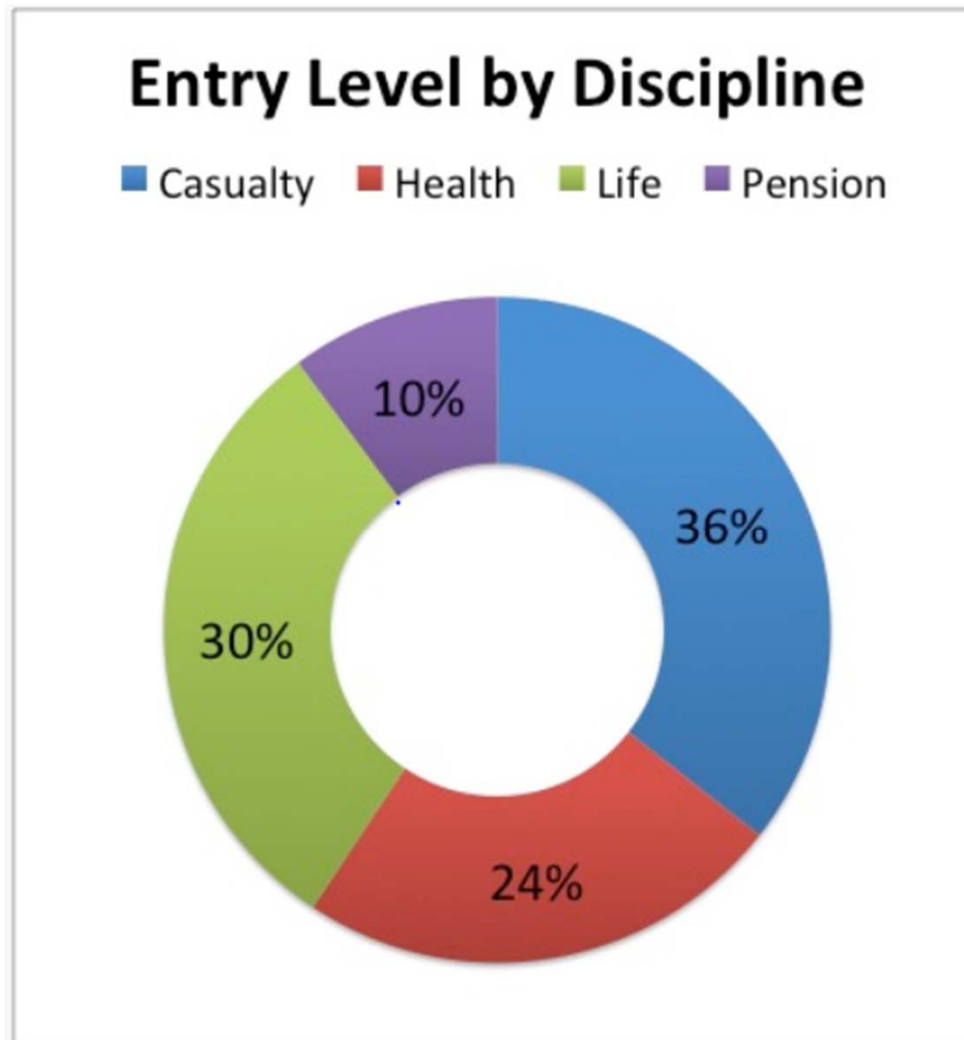

Where do Actuaries work?

- Insurance Industry
 - Property (home) and casualty (auto)
 - Life and Health
- **Employee Benefits Industry**
 - Retirement Benefits
 - Health Benefits
 - Social Security
- Financial Services Industry
 - Banks, investing, risk management
 - Mergers & Acquisitions

What skills and talents are needed?

- Knowledge of math and finance
- Computer skills
- Keen analytical, project management, and problem solving skills
- Attention to detail
- Solid communication skills (oral & written)
- Good business sense (know what is important)
- Motivation, creativity, independence
- Ability to work with others

How can you become an Actuary?

- An actuary achieves professional status by passing examinations to prove a certain level of knowledge
- Actuarial examinations are administered by the Casualty Actuarial Society (CAS) and Society of Actuaries (SOA)
 - Preliminary exams are administered jointly
 - Examinations are held multiple times a year depending on the exam
- Two professional designations exist for each organization:
 - **Associate** (either ASA or ACAS)
 - **Fellow** (either FSA or FCAS)
- You can earn while you learn - employers support actuarial trainees taking exams by providing exam study time on the job

Preliminary Education Structure

- Prerequisites
 - Calculus
 - Linear Algebra
- Validation by Educational Experience (VEE)
 - VEE credits are obtained through college courses, standardized exams, approved educational experiences, and transitional exams for:
 - VEE- Applied Statistics
 - VEE- Corporate Finance
 - VEE- Economics

Preliminary Education Structure

- Preliminary Examinations
 - Exam 1/P: Probability
 - Exam 2/FM: Financial Mathematics
 - Exam 3F/MFE: Models for Financial Economics
 - Exam 3L/MLC: Life Contingencies
 - Exam 4/C: Construction and Evaluation of Actuarial Models
- In addition to the preliminary education, each society has additional requirements to achieve professional designations

How can you become an Actuary?

- Acquire a well-rounded curriculum, including classes approved for VEE credit
- Sharpen your communication skills (especially writing/grammar)
- Take advantage of opportunities to give presentations
- Sharpen your computer skills
- Get good grades (**3.0 GPA required at Cheiron**)
- Take actuarial exams while in school (**at least 1 exam for internship at Cheiron and 2 exams for new hires**)
- Find an actuarial internship

What is it like to work at Cheiron?

- Employee benefits consulting firm
- Employee-owned
- All revenue derived from actuarial consulting services
- Two primary specialty areas, retirement and health
- Clients include public sector entities, multiemployer plans, corporations and nonprofit organizations

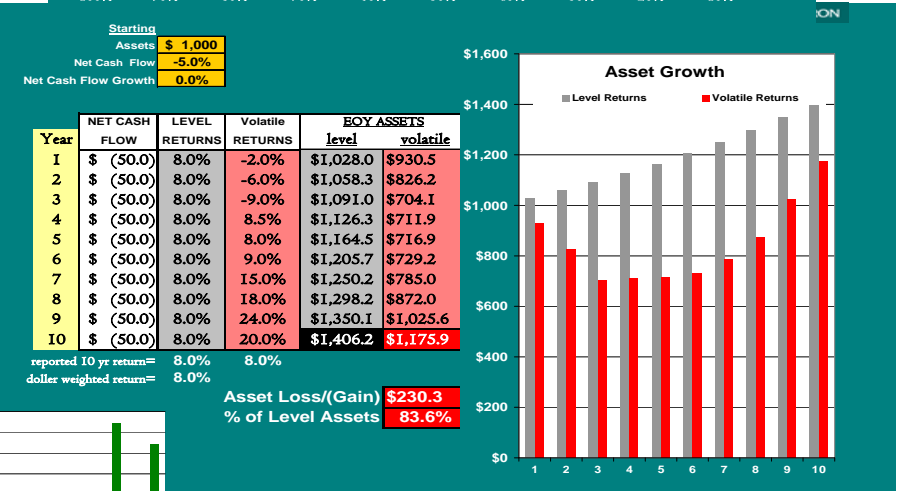

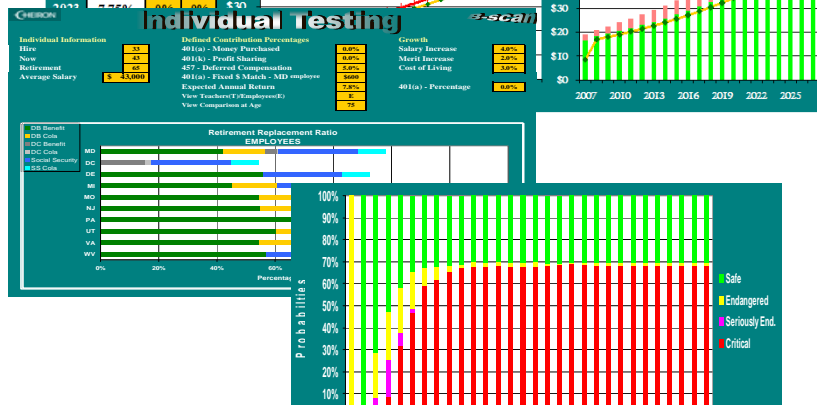

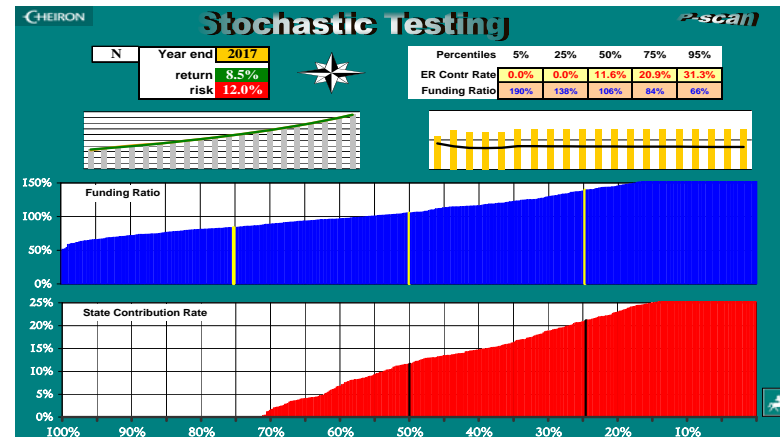

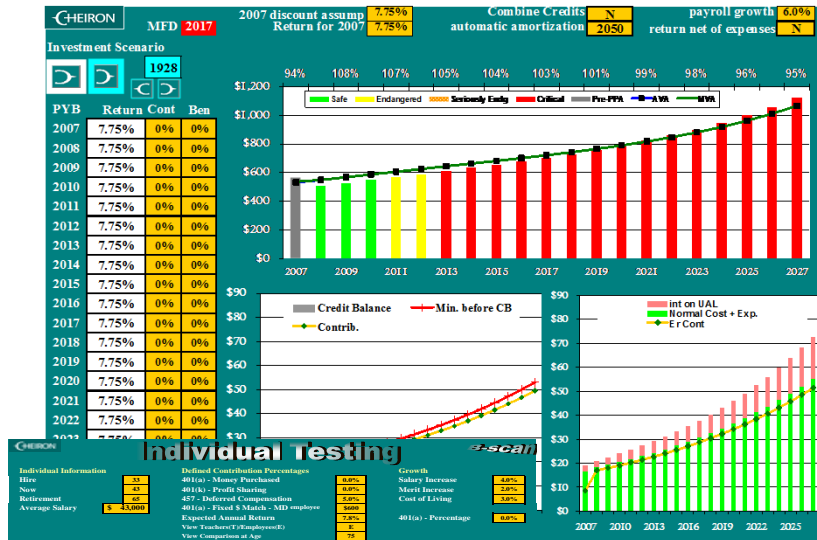

What is it like to work at Cheiron?

- Nine offices nationwide (plus 4 satellites)
- 100+ Employees
- Serve over 300 pension and health funds throughout the country
- Excellent reputation in our industry (plan sponsors and competitors)
- Significant growth on the West Coast
 - Offices in San Diego (Solana Beach), Los Angeles, Oakland, and Portland (satellite in Seattle)

Cheiron's Advantage

Classic Values, Innovative Advice

CHEIRON

Classic Values, Innovative Advice.

***Cheiron** (pronounced kī·ron), the immortal centaur from Greek mythology, broke away from the pack and was educated by the gods. Cheiron became a mentor to classical Greek heroes, then sacrificed his immortality and was awarded in eternity as the constellation Sagittarius.*
