Due: 9:00am, Friday, March 13th.

Instructions: If you do not have an account with Gradescope linked to your @ucsd.edu address, you will need to create one. Log into your Gradescope account linked to your @ucsd.edu address, find our Math 142B course and upload your scanned practice submission.

This practice submission consists of two problems. You will need to upload a separate page for each problem in the order given by the number of the problems. If you need more than one page for a single problem, upload those pages in order. At the top of each page, include the problem number and your name.

Problem 1. State the name of this course.
Problem 2. State the instructor’s last name.
