Comments on teaching (strengths, areas for improvement)

Student 1279 - Gwen is awesome. She clarified any confusing material from lecture, made sure everyone understood the content, and made herself available for help during office hours, or even outside of office hours.

Student 8500 - Gwen is the literal best!

Student 8541 - Amazingly kind, thoughtful, passionate, and helpful. Learning everybody's name was incredibly nice, and recitation was always very helpful. Thank you for all of the effort you put in, it was massively helpful!

Student 19710 - Great recitation sheets, also really appreciated the feedback cards after every class.

Student 26090 - so good! thanks for everything you do! the pre-exam days are phenomenal but so is literally every recitation

Student 26580 - Great at explaining concepts, very helpful at office hours. Also, she learned everyone's name in recitation by the second day! I thought this was really cool and actually made me feel a lot more comfortable with her, approaching to ask questions, etc,

Student 28507 - The overview of the lecture before problem solving was very useful You explain how to solve the problems very well also

Student 32742 - Her recitation summaries were extremely well organized! And really helpful office hours! Thank you, Gwen!

Student 33436 - Really understood where I would get lost in solving a problem and would help me understand why some equations worked and others didn't. Her OHs were one of the biggest reasons I finished psets

Student 45373 - She really helped me learn the subject as her recitations were very clear and well paced. She also was overall a very good teacher and had a warm personality that encouraged me more to learn

Comments on teaching (strengths, areas for improvement)

Student 2508 - Amazing and supportive TA

Student 4740 - Thanks for help at OH

Student 4888 - Most personable and enthusiastic math instructor I have ever had. An inspiration!

Student 5418 - Gwen was easily the most optimal TA for this class; she reviewed concepts we covered while building on them just in time for us to do the problem set.

Student 6355 - Gwen is honestly amazing. She is so nice and she really cares that you understand the concepts. She explains things well and if you still don't understand she'll try and find another way to explain something.

Student 6913 - Very well run recitations. Gwen puts a lot of effort into getting feedback, clearly cares about the students, and runs very clear recitations.

Student 12104 - Wonderful TA. Very helpful at office hours in guiding students. Wouldn't give you answers or even a lot of help at once but instead small hints to get you started, or help you get unstuck so you would end up figuring it out. Super helpful

Student 30144 - Made the effort to learn all the names in the class.

Student 36047 - An amazing TA! I really appreciate the work that Gwen put into teaching us, including the review sessions that she would host during recitation.

Student 36990 - Gwen is amazing!!!!! She is the reason why I know what's going on in the class -- really wouldn't have

been able to pass the class without her.

Comments on teaching (strengths, areas for improvement)

Student 5571 - Recitations were generally helpful.

Student 14756 - Recitations always helped me understand completely topics covered too quickly in class. Problems used were very good for understanding concepts. Also was always very kind and helpful to me.

Student 19286 - She is a very cheerful TA who tries to give simpler ways to think about recitation problem. Her recitation gave step by step methods on how to approach a problem.

Student 26130 - Gwen has very organized recitations and I could tell she really prepares for them. She is also good at explaining difficult concepts

Student 38779 - Thanks for all the help in office hours!! Was super coherent and helpful for the psets.

Student 39561 - Gwen is always very energetic and helps me to learn!
