- Awesome guy! So friendly. I liked going to discussion just because he was a great TA. Always helpful, always answered and considered questions. Would like to have more TAs like him. I really liked having the warm up problems at the beginning of class.
- Best math TA I've ever had.
- Best Teaching Assistant I have had at UCSD thus far.
- Everything was great but you kind of need to improve your board technique. Sometimes it was confusing to follow the steps to a problem. Other than that, best TA I ever had!
- Great Ta would help with homework and any questions in regard to the course, very helpful outside of section as well and kind enthusiastic and energetic as a TA and as great presence in a room.
- GREAT TA! I went to his office hours and he truly helped me!
- He is just such a nice guy, always smiling, always trying his best to help everyone and make sure they understand, does very well explaining, and has a generally encouraging and positive attitude and persona.
- He was a great TA overall except he lacked a bit on his board techniques.
- He was very helpful in answering personal questions. Also he had extra office hours for two days prior to both midterms. Great TA
- I was honestly excited about math this quarter. I felt so much better about the material after attending section. Thanks so much for helping me. I think I learned more from you than I actually learned from Eggers(no offense towards him), keep up the great work. I'm positive I'm not the only one that felt this way. Also I don't recall you ever asking for anyone to fill out your evaluation which I thought was very cool of you. Thanks again, you're awesome :)
- Jeremy is a fantastic TA. He always came prepared for section with little warmup problems and he helped us go over everything we didn't understand. He is an extremely nice person and a very good teacher. I would definitely recommend him to anyone.
- Jeremy is great at explaining complicated problems, keeps the material interesting, and is very willing to meet with students outside office hours. I have never had a better math TA!
- Jeremy was an amazing T.A. Always well prepared and drilled in the understanding of certain concepts that otherwise would have been extremely confusing. Seems to care for the students and their well being.
- Jeremy was the most helpful TA for any subject I have ever had. He really tried to help his students understand the material by providing a min lecture and warm up to help the students get an idea on how to approach a problem before they asked questions. He is very helpful in office hours by giving each student the chance to get all of their questions answered properly.
- Nope
- One of the best Math TA's I have ever had. He explains and simplifies concepts using practical practice problems so that students can fully understand each step. Provides extra time for helping students during office hours and also during TA sessions.

- The best TA I have ever met. Although I couldn't get some point back from mid-term but he did show that he cares about his student very much. I learnt a lot from him. Won't be able to pass this class without him.
- You are awesome!!!
