Due: Whenever

Directions: You can collaborate, but must write up the solutions independently and in a good handwriting. Consulting solutions to problem sets of previous semesters or internet solutions is not allowed.

Problem 1. Make sure to include your name, student ID, and the name of your professor in the top right-hand corner of your assignment. For longer assignments later in the quarter, this only needs to be done on the first page.

Problem 2. Create an account with Gradescope linked to your @ucsd.edu address. If you already have a Gradescope account linked to your @ucsd.edu address, then you do not need to create another account.

Problem 3. Read the guide for submitting homework on Gradescope and watch the video For students: submitting homework.

Problem 4. Log into your account, find the course Gradescope page, select the correct assignment, and upload your scanned assignment following the guide in the previous step. If you cannot find the course Gradescope page, then you may need a course entry code MZGB58.

Problem 5. Answer the following questions:

(i) Do you think Luca’s voice is sufficiently loud and clear?
(ii) Do you think Luca’s handwriting is readable?
(iii) Can you guess how old Luca is?
