- he is passionate about math, and is always enthusiastic about it, which makes the section much more enjoyable. he also teaches us methods to solve something more efficiently, and listens to the students about the problems they have or want to go through. he also checks in often to see if we were following.
- He made sections really fun and formed section around our questions and then if there was time he'd go over questions or topics that are useful on the quizzes and exams.
- I could write a whole essay about how helpful TA Scotty was. I attended every single discussion and most office hours. My grade before attending his office hours was a D, now I have an A! He is so patient and explains everything so perfectly.
- Made discussions enjoyable and helped me understand a lot of concepts I couldn't understand before.
- Scott is super nice and helpful. He's amazing at teaching sections and will help you whatever subject or topic you are struggling with. He is really approachable super energetic, has amazing energy in class, creates a good atmosphere where students can feel comfortable and really learn.
- Scotty consistently showed up to discussions with a positive attitude that helped make learning math slightly more bearable. He provided ample opportunity for questions and frequently checked in with students to make sure nobody was falling behind. His ability to break down complex topics into more manageable sections and simplify confusing problems greatly helped me become successful in this class. I also appreciated how he actually had a personality, as opposed to other Math 'people' who seem more like robots rather than humans. Fun guy, fantastic IA. 10/10.
- Scotty is a nice guy, I'd definitely recommend having him as a TA. However he does get very disorganized sometimes when showing us how to solve a problem, but overall his discussions do help and he gives us tips that helped me understand the course material better.
- Scotty was always very energetic and enthusiastic with his teaching. He was always willing to answer our questions and help us in any way he could. I think he did a great job as an IA.
- Scotty was especially welcoming and friendly, and even though calculus is an intimidating subject, he managed to make it a little more accessible. The sections are always relaxed but very helpful.
- The greatest I.A ever. Extremely knowledgeable yet super fun and engaging. A positive spirit in this time of stress and crisis. 10/10 would not only recommend as an I.A but also as a friend.
- This TA made sure all our homework questions were answered and even gave different methods of solving similar problems, so it was very helpful to our understanding of the material that was going to be covered in quizzes and tests.
